*Part 2 of the SY 2011-12 CRDC is a continuation from Part 1. All survey items cover school year 2011-12. Questions your LEA did not answer due to skip logic will be marked as "N/A" (for example, elementary schools will see N/A for interscholastic athletics).*

### General Instructions

- All Part 1 and Part 2 CRDC data are for the same school year.
- It is important to review the CRDC definitions, FAQ and User's Guide before gathering and entering data.
- Each LEA needs to complete an LEA Form and a School Form for each school in the LEA.
- The final step for an LEA in completing its CRDC submission is to complete the LEA certification. Before certifying, an LEA will need to run the Submission (LEA and Schools) Data Check function.
- For all survey items, students must be counted at their attendance school. See *Attendance school* in the definitions.
- Counts by race/ethnicity by sex are unduplicated counts, i.e. a student is counted only once in the race/ethnicity columns. Counts in the columns for Students with Disabilities (IDEA), Section 504 Only, and LEP are unduplicated within the column, but are duplicate counts with other columns, except that a student cannot be counted under both Students with Disabilities (IDEA) and under Section 504 Only. For example, a student who is LEP and is a student with disabilities (IDEA) will be counted three times, once under race/ethnicity, once under students with disabilities (IDEA), and once under LEP. See *Duplicated counts* and *Unduplicated counts* in the definitions.
- For tables that include data by race/ethnicity by sex, the Web-based survey tool will keep a running total of the values you enter in the race/ethnicity columns for each row. As you enter a number in any race/ethnicity category, that number will automatically be added to the Total column. Therefore, the sum of the counts that you enter for race/ethnicity by sex will be the total count of students for the particular row. Because it is not possible for your LEA to modify the total, you must ensure that every student is included in one and only one race/ethnicity category.
- The LEA Users Guide provides useful information about using the Web tool.
